

## **HIRING OF PUBLIC HEALTH ASSOCIATE DEPLOYMENT PROGRAM (PHADP)**

The overall goal of Universal Health Care or Kalusugan Pangkalahatan is to improve health outcomes, provide financial risk protection and provide quality access to health services especially to the poor. With this, the Department of Health (DOH) through its Deployment of human Resources for Health (HRH) Program deploys doctors, nurses, midwives, dentists and other health professional as a strategy in support to the attainment of Universal Health Care. While, the DOH deployed HRH and rural health based health workers are intense in providing public health and clinical services, there is also a need to strengthen the other administrative and managerial concerns in the rural health unit such as operational health planning, researches, disease surveillance, staff capability building and program management. As such, the DOH has designed the Public Health Associate Deployment Project (PHADP) that will deploy Public Health associates (PHA) assigned in RHUs and work alongside with other HRH focusing on the implementations of DOH programs and health plans.

PHADP is a two-year project to employ public associates that shall be assigned in areas identified by the DOH taking in consideration the municipalities under the 43 provinces identified by the Department of Budget and Management as Focus Geographical Areas.
